

Cluster Lashes Aftercare

Now that your lashes are long, thick and beautiful, follow these easy care instructions and they can last indefinitely with regular touch-ups.

To maintain this look and extend the life of your lashes:

- **Do not wash eyes or shower and avoid crying, sweating and steam for 24hours after lash application**
- **Do not swim or spa for 48hours after lash application to allow adequate time for bonding**
- **Be gentle with your lashes**
- **Avoid rubbing and pulling your eyelashes**
- **Avoid oil-based and waterproof mascara. Regular mascara is not recommended for use as it will dissolve the bond with the lashes. Gently remove mascara with water-based eye makeup remover. Apply mascara on the tips only**
- **Avoid any creams, eye makeup removers, lotions, sunscreens or cleansers containing oils on or near eyelashes. Oils can loosen the bond of lash extensions. Care must be taken to apply eye cream sparingly with avoidance of the lash line area.**
- **Do NOT use an eyelash curler on your extensions**
